September 17, 2017

Dear Rich,

The letters announcing the intention of WCBS-TV to begin broadcasting from their new facilities were mailed on July 26th 2017 to 1788 medical facilities within a 50 mile radius of the transmitter facility located at the top of One World Trade Center Building (N 42-40-46, W 74-00-49).

Enclosed is a copy of the Medical Notification Letter, a list of the addresses, proof of mailing (stamped by the US Post Office in Orlando Florida) and a list of the zip codes used in the research.

Shortly you will receive a package containing the undeliverable letters returned by the USPS. The rate of return is about nine percent. Typical reasons for returned letters are: the facility has re-located and forwarding has expired, the facility refused to accept the letter, the facility changed their name or they have merged with (or been acquired) by another facility. In this last case, the facility was most likely notified under another name.

In any case, the returned letters along with the total list of facilities notified and the proof of mailing will be evidence of your sincere attempt and good faith effort to identify and notify health care facilities in your coverage area.

Please place these documents in your Public File.

In closing, it has been a pleasure to serve you and your station and I look forward to helping you with any other notification needs as they arise in the future.

Sincerely,

A handwritten signature in blue ink that reads "Lisa Sockett". The signature is written in a cursive, flowing style.
